

PRESS RELEASE

Ref: Safir T14 Semi Auto Shotguns – Important Information for RFD's.

Safir Arms are pleased to announce that with immediate effect, firearms dealers (RFD's) in the UK and Ireland, IoM and Channel Islands etc can now order and import Safir T14 shotguns directly from the factory and not from a sole importer.

To register as a Safir Dealer / Importer, RFD's should simply email a copy of their RFD certificate and a letterhead/compliments slip to the Safir RFD support team on info@safirdirect.com (**STRICTLY Trade Only**) who will contact you with appropriate information. The Safir website is on : www.safirarms.com/eng.html

The RFD support desk can also handle dealer enquiries from Italy, France and the USA (except NY State) and is looking for FFL's in those countries who wish to purchase direct.

Ref: Safir T14 Semi Auto Shotguns – New Product Range.

Safir are also delighted to announce the launch of their new range of A4 Flat Top models. This will allow shooters to fit optics of their own choice such as a scope, red dot sight, laser, flip up sights or even a detachable carry handle/sight arrangement.

ALL Safir T14 Shotguns are marked 36/.410 cal and are UK LEGAL in terms of barrel length / overall length. For U.K customers 5 or 10 shot magazines are available as standard. High capacity 13 round magazines will be available very soon. Longer barrels can be specified if required.

Section 5 models are also available to the appropriate dealers and agencies.

Ref: Safir T14 Semi Auto Shotguns –Information and Support for Clubs and Shooters.

As part of their RFD/customer support strategy, the Safirdirect support team would like your help in compiling a directory of RFD's and retailers etc who can supply accessories and ammunition (slug and shot in 36/.410) suitable for the T14. If you are an RFD or accessory retailer and can help in any way, please drop us a line on t14comp@safirdirect.com

The support team would also like to hear from any T14 owners, clubs, range owners, landowners etc in the UK / Ireland etc who have access to or can provide land or range facilities that are cleared for shotgun target shooting using the T14 with SLUG ammunition (as well as birdshot) for practice and competition purposes. Again, if you can help please drop us a line on t14comp@safirdirect.com
